

How Human History Dictated the Movies Genres

1900

EARLY STAGES OF MOVIE CREATION

The first movies were simple documentaries and a result of what was used to see in real life performances: Comedy and Drama.

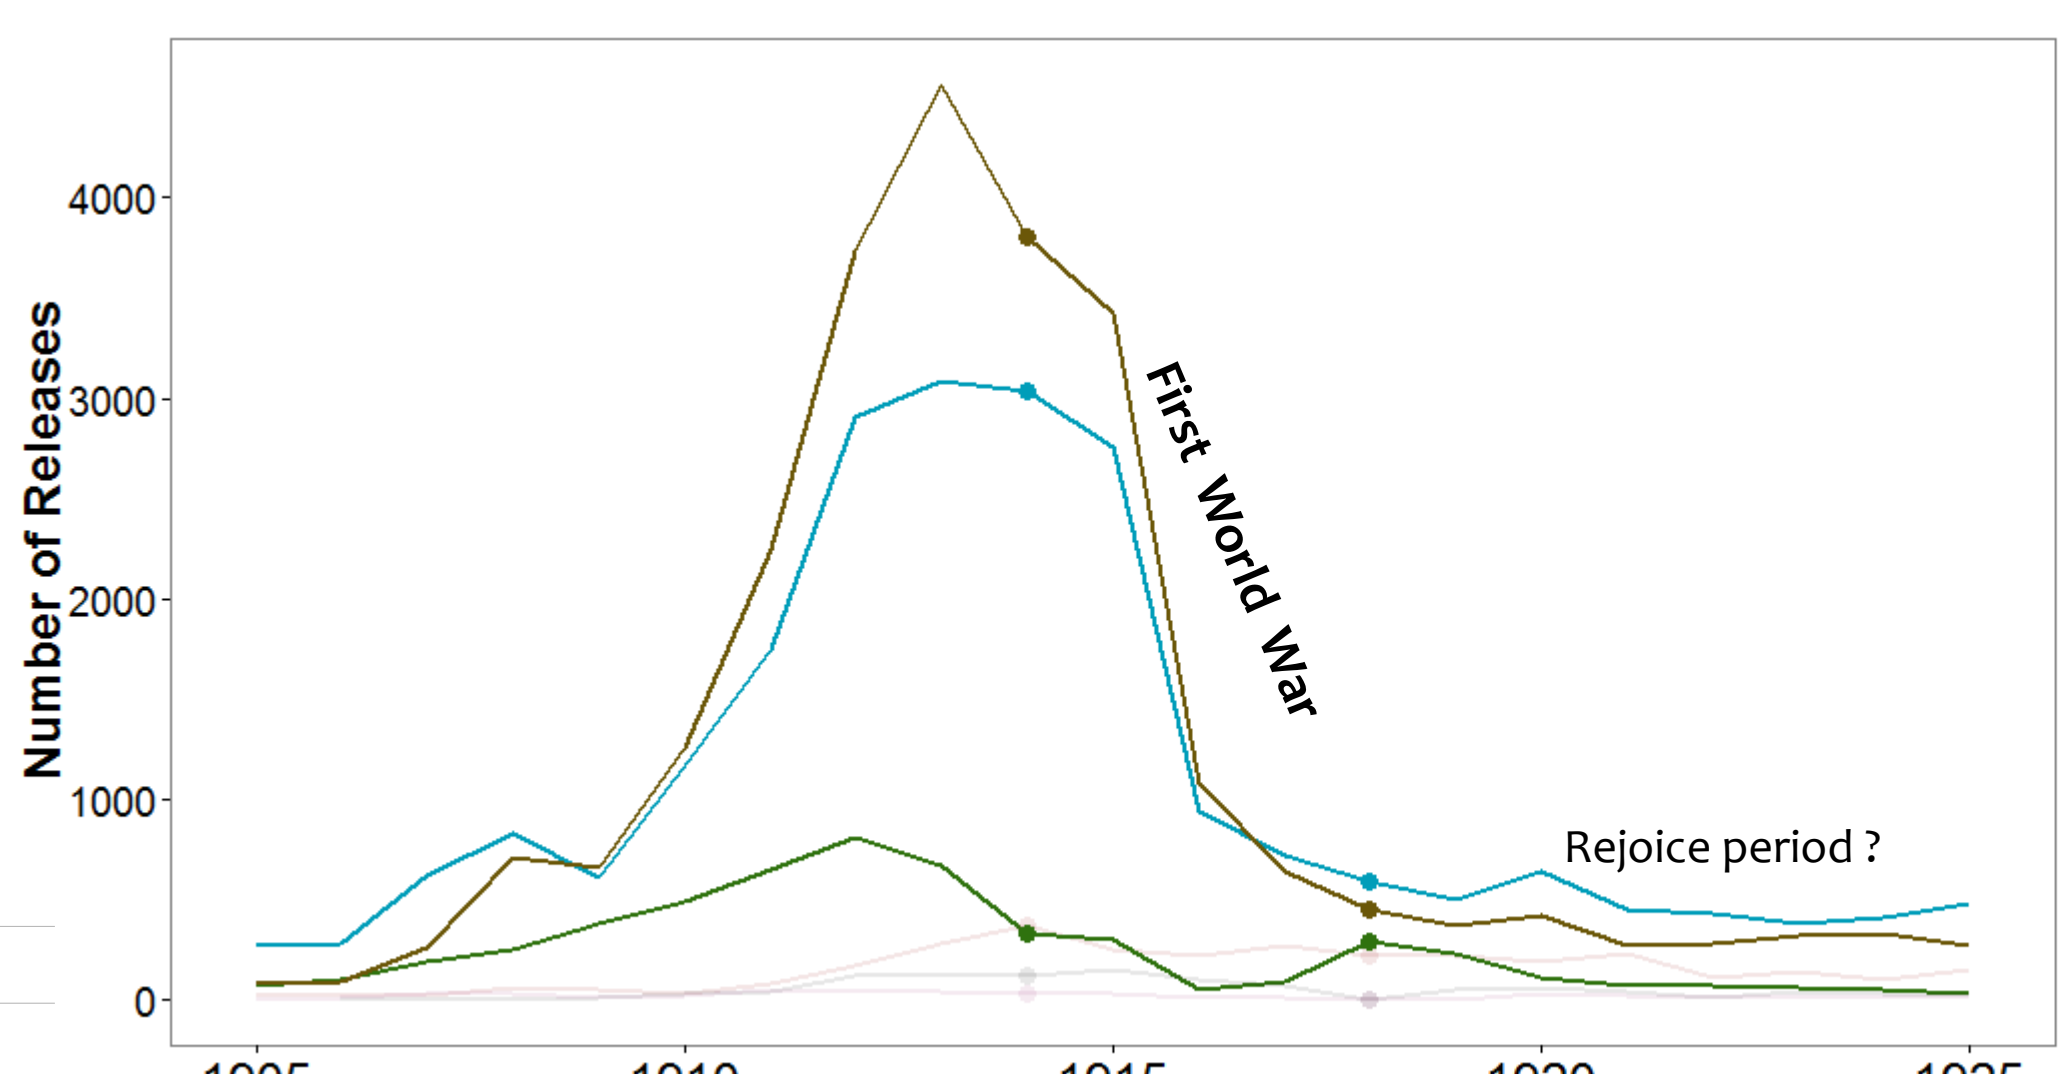

Geographic Map of Movie Releases 1900

1914 - 1918

THE FIRST WORLD WAR

War leads to a drop of movie creation.

Comedy and Drama drop and Documentaries Rise

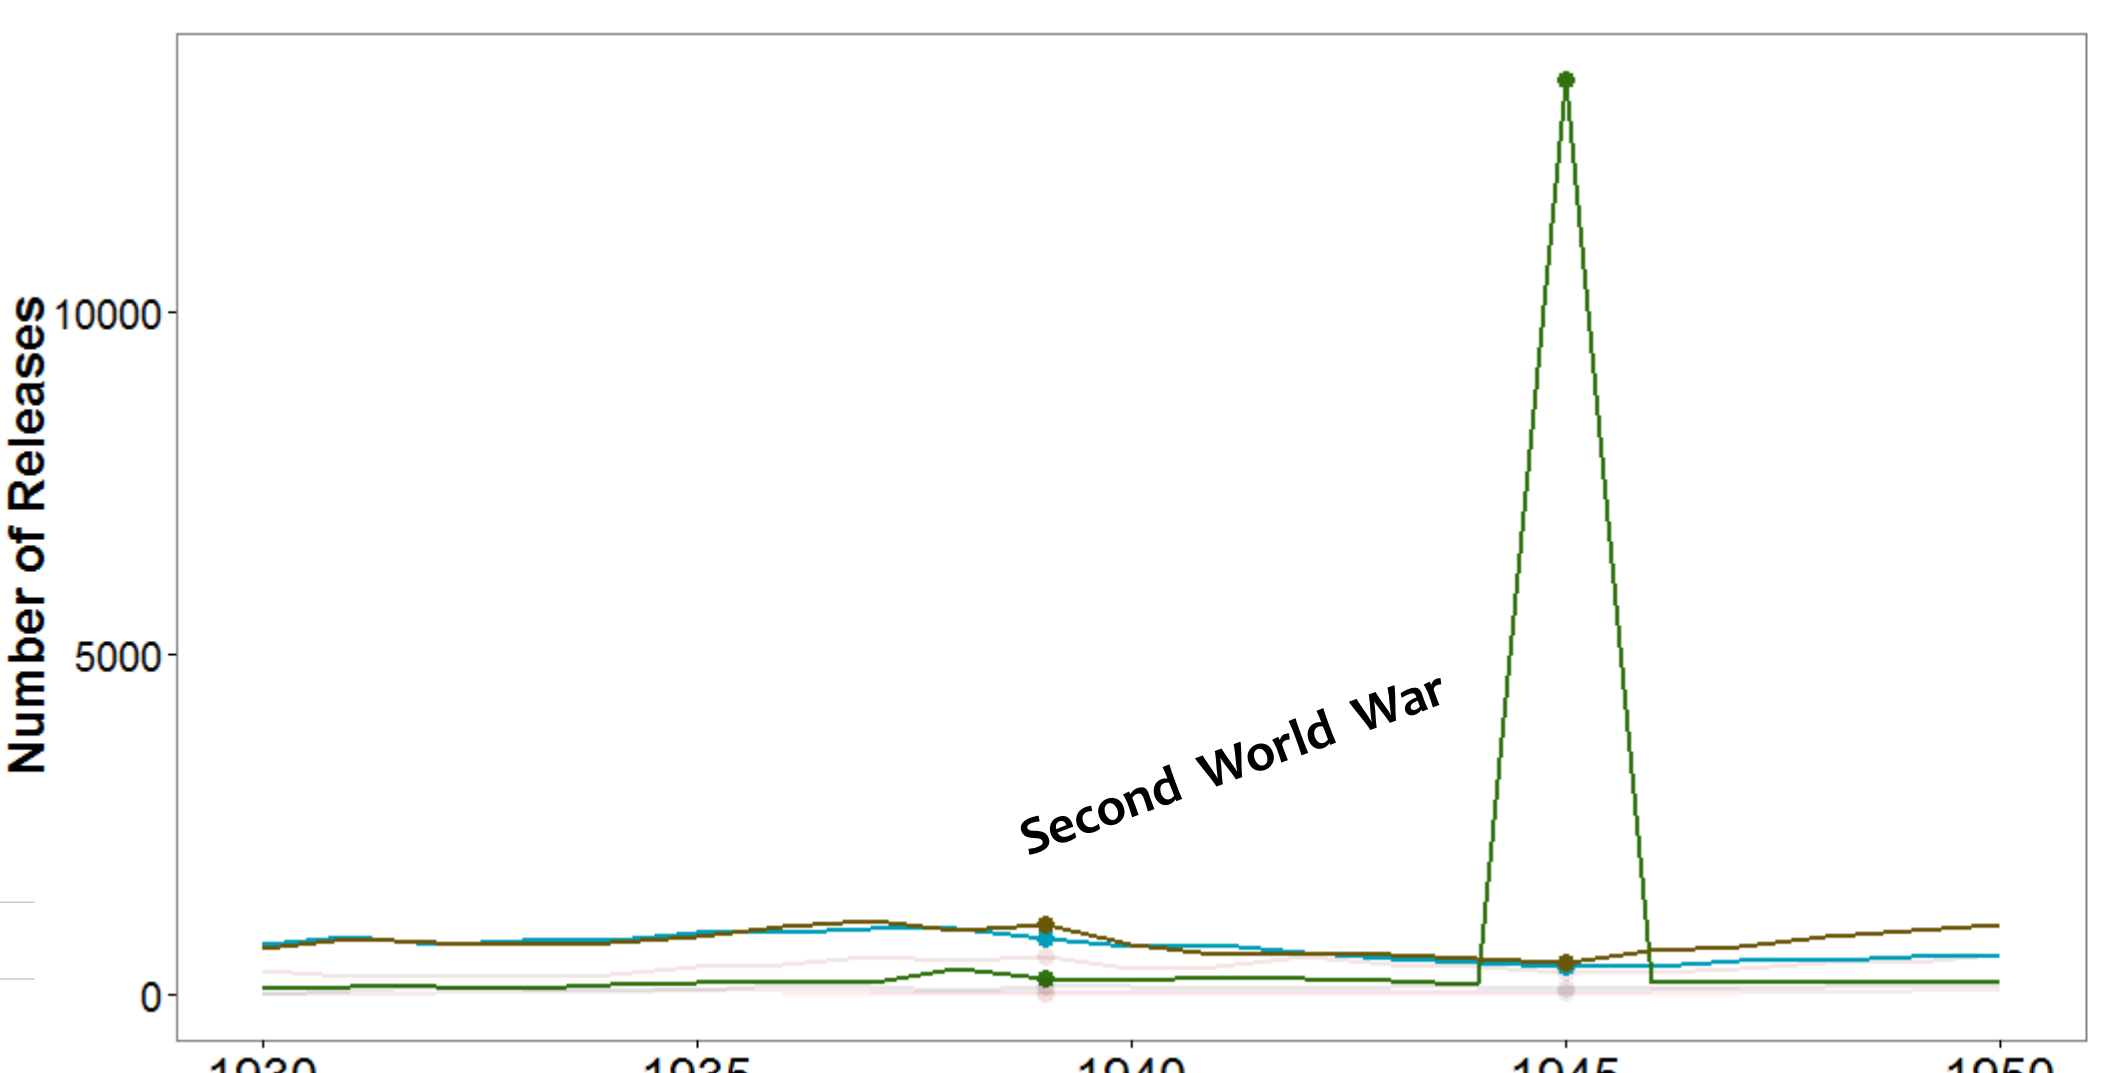

1939 - 1945

THE SECOND WORLD WAR

Huge amount of documentaries made to show the dangers and damages of war.

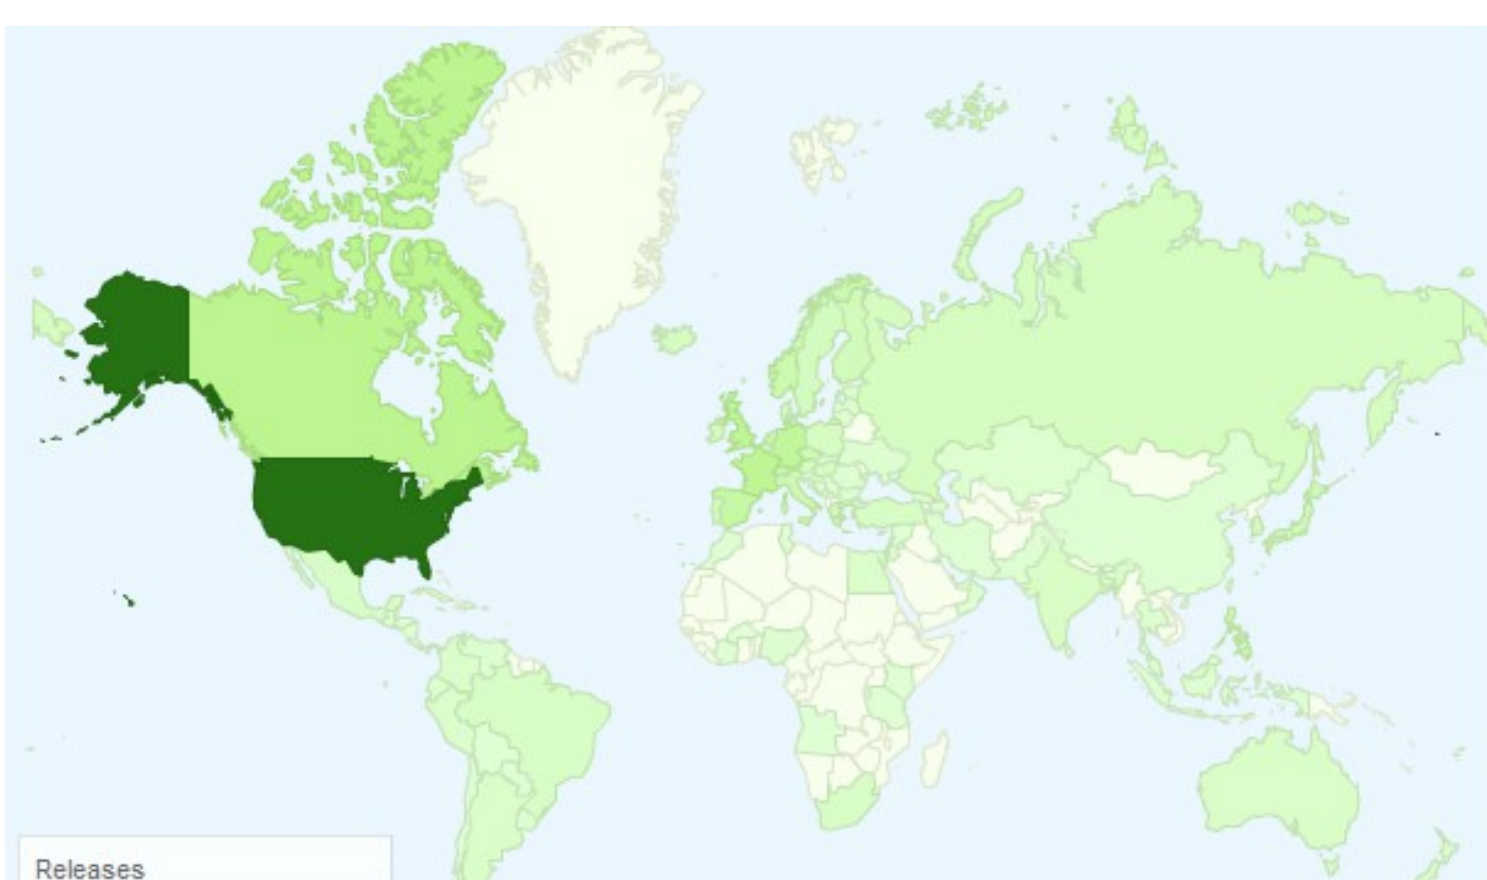

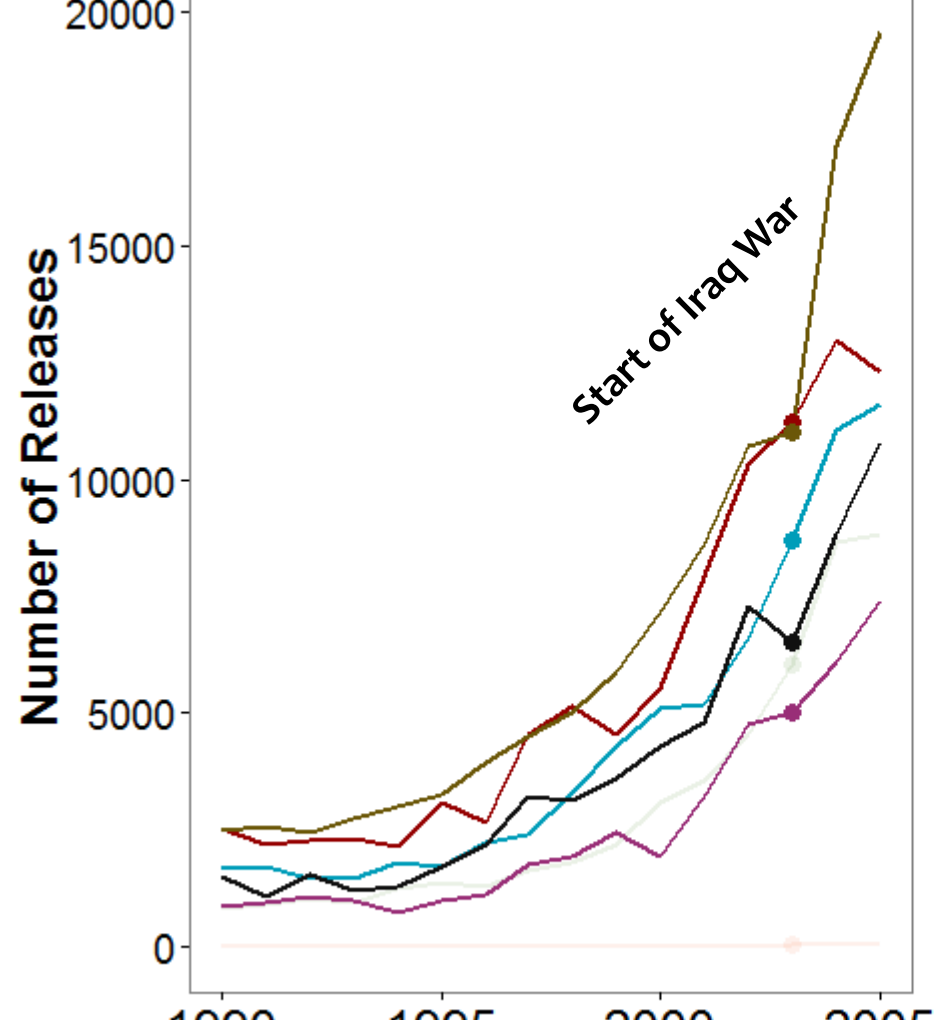

A message needed to be passed.

1997 - 2002

COMPUTERS AND INTERNET BOOM

- Major increase of movie creation.
- Action, Fantasy, Sci-Fiction and Horror start to grow due to special effects improvements.
- World Widespread of Movie Release

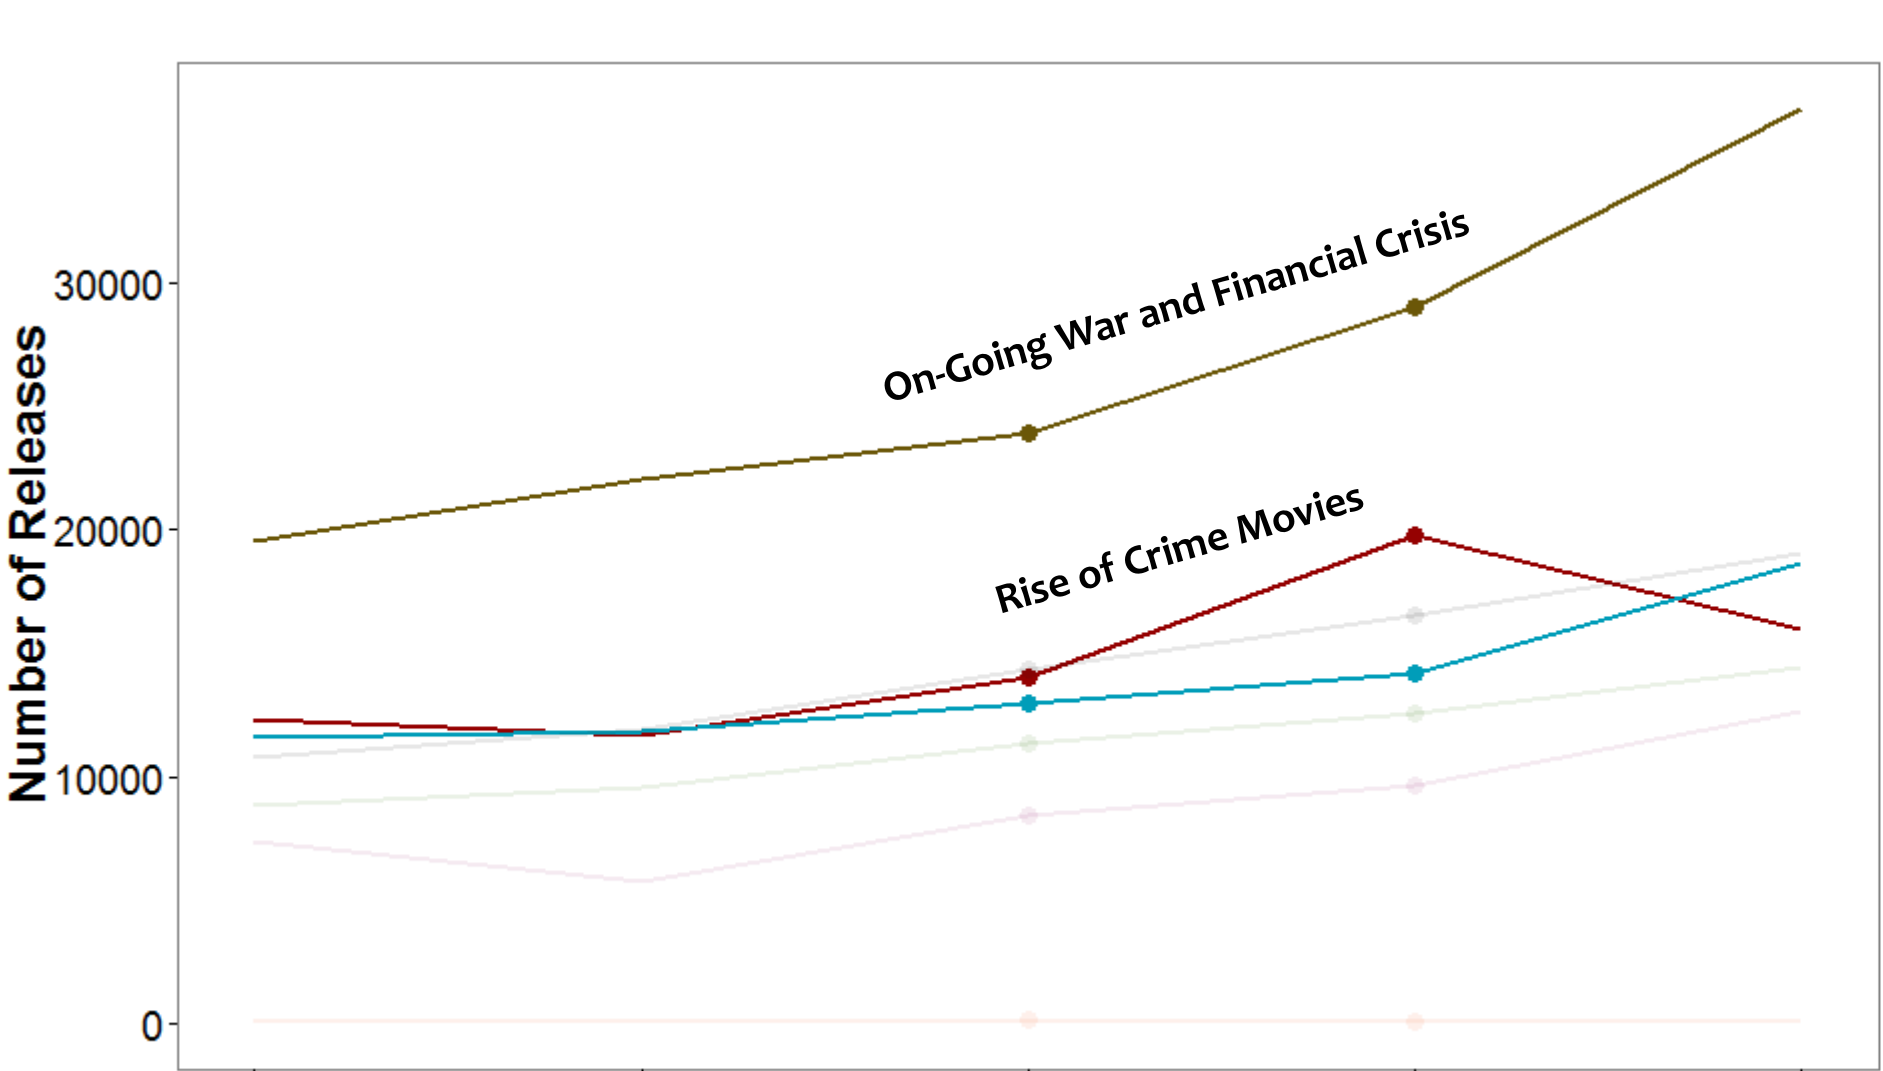

Geographic Map of Movie Releases 2002

2007-2008

FINANCIAL CRISIS

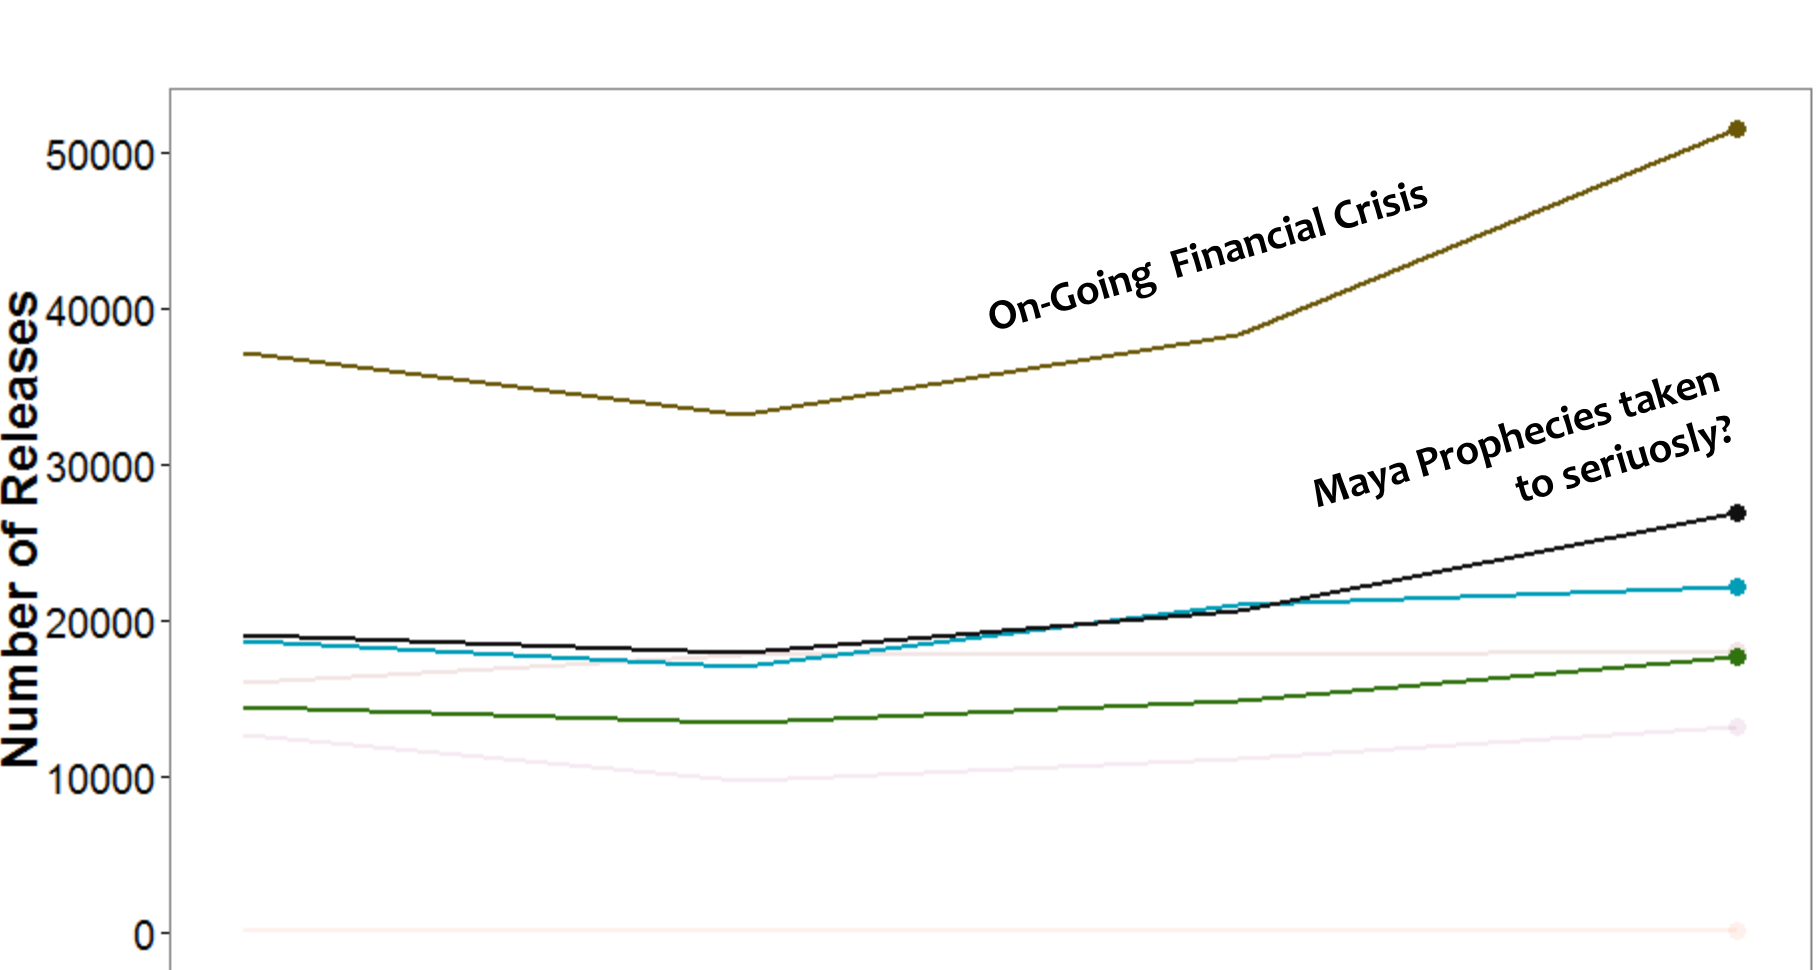

- Rise of Action and Crime Movies
- Higher increase of Drama than Comedy

2010 - 2012

WORLD END SPECULATIONS AND ON-GOING FINANCIAL CRISIS

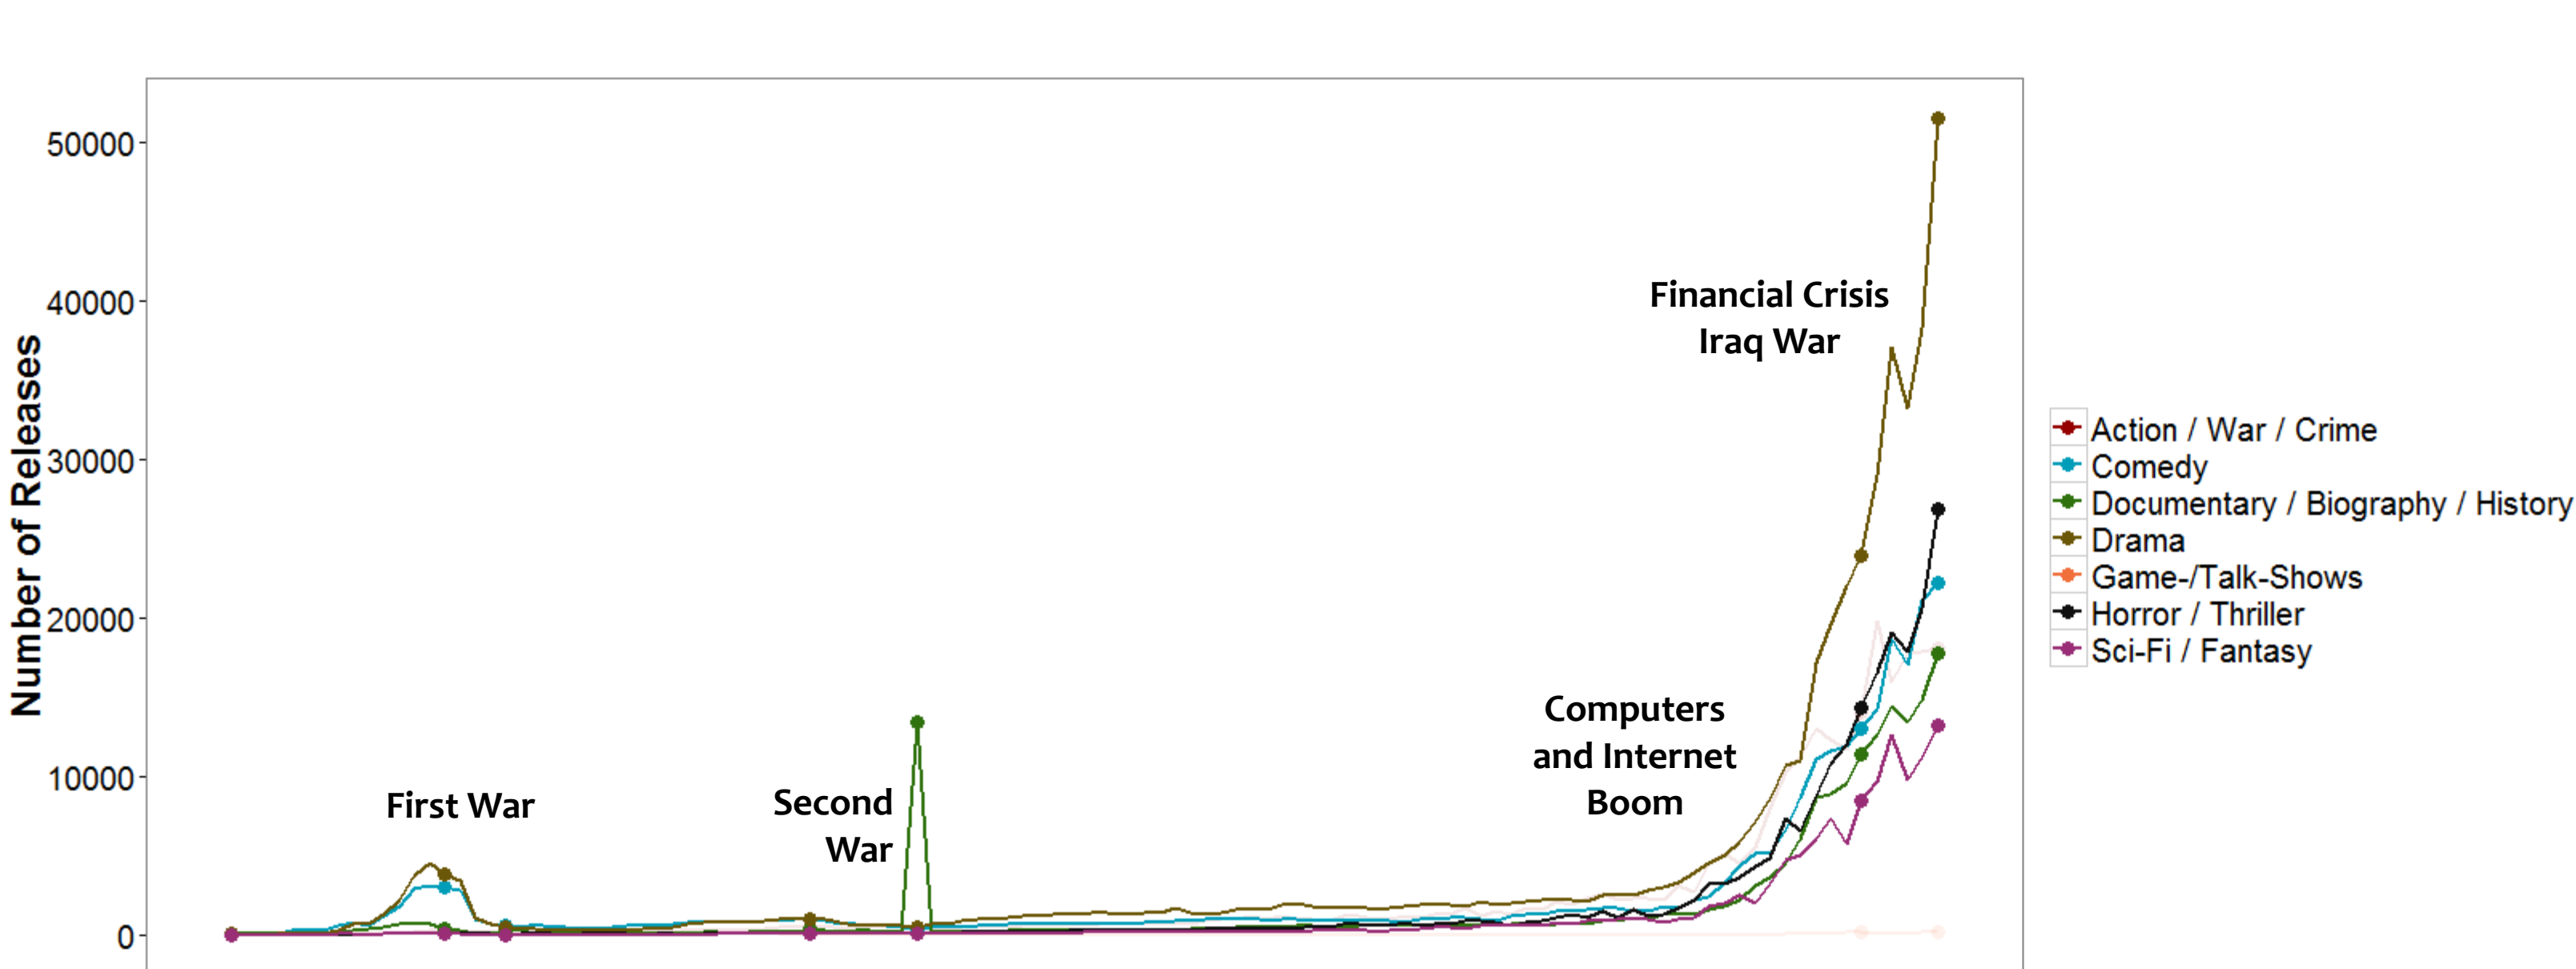

- Sudden rise of Thrillers and Documentaries

OVERALL

From war to economical crisis the Drama Genre seems to be the most benefited the most time from difficult periods. Nonetheless comedy movies are most of the time the second to the drama.

Documentaries appear to be the chosen genre to send a message to the public.
